CONNECTING THE WORLD

EchoStar Satellite Services L.L.C. is a subsidiary of U.S. headquartered EchoStar Corporation (Nasdaq: SATS), a world-class satellite owner/operator with a fleet of 10 satellites. We provide Ku-band transponder capacity, with comprehensive coverage of the United States and the Gulf of Mexico, on our satellites located at 121° and 105°.

Our reliable and innovative satellite communications infrastructure and solutions meet the evolving communications needs of media and broadcast organizations, U.S. Government and military service providers, enterprise customers, and the aeronautical and maritime industries.
